Prior to image processing, the contractor is responsible for performing a basic check (preflight) of the furnished publishing files to assure accurate output of the required reproduction image. Any errors, media damage or data corruption that might interfere with proper file imaging must be reported to the contract administrator in sufficient time to comply with the shipping schedule. In addition, the contractor is responsible for creating or altering any necessary trapping, setting proper screen angles and screen frequency, and defining file output selection for the imaging device being utilized. All furnished files must be imaged as necessary to meet assigned quality level.
